

Announcement

Filing of Patent Protection on EOT Diamond Wire Saws

Diamond Wire Saw

Diamond Wire Saw Mounting

The EOT Cutting Services business of TETRA Technologies, Inc., is proud to announce that a patent application was filed on June 20, 2008 for patent protection on **EOT Diamond Wire Saws**.

EOT personnel are industry experts at developing, designing, and using cold-cutting equipment to solve difficult and challenging cutting problems often found in the abandonment and decommissioning of oil and gas wells, pipelines, and platform structures.

EOT's latest diamond wire saw design is just one of the company's unique tool designs in the field of cold-cutting. This saw has performed over 650 cuts on more than 50 different projects.

More information on all EOT Cutting Services can be found by clicking on the EOT link on the TETRA website at **tetratec.com**.
